RumiChem

Delivering more than Materials

About Us

RumiChem, established in 2024 in Meydan Freezone, Dubai, was founded with a clear vision to become a strategic player in the global trade of petrochemicals, polymers, and specialty chemicals. As a fast-growing organisation, we are dedicated to connecting high-quality chemical products with manufacturers and distributors across Asia, Africa, and the Far East.

At RumiChem, we specialize in the sourcing and supply of high-quality chemicals tailored to the evolving needs of our clients. Our approach combines operational efficiency, strict regulatory compliance, and client-specific solutions to set new standards for reliability.

What sets us apart is our ability to build agile, responsive supply chains that ensure the right product reaches the right customer—on time, every time.

Though we are a young company, we operate with an old-school sense of integrity.

Our philosophy is simple: *Do the right thing. Deliver with purpose. Commit to clarity in every exchange.*

Our Direction, Defined

MISSION

To deliver high-quality polymers and petrochemicals through a globally agile trade network that prioritizes speed, reliability, and precision. We aim to build enduring partnerships, strengthen supply chains, and empower industries by providing consistent value, responsive service, and long-term support across international markets. At the heart of our mission is a commitment to sustainable growth, operational excellence, and meaningful collaboration that drives mutual success.

VISION

To become a globally recognized and respected name in petrochemical trading, known for delivering with precision, acting with integrity, and embracing innovation at every stage. We aim to be more than just a supplier. Our goal is to be a strategic enabler for industries across continents, providing consistent access to high-quality polymers and petrochemical solutions.

By building resilient trade networks, fostering long-term partnerships, and staying ahead of evolving market needs, we envision a future where RumiChem drives industrial progress, supports sustainable development, and sets new benchmarks in global chemical trade.

Our Philosophy

Principled Trade. Purposeful Growth.

At RumiChem, our business philosophy is rooted in clarity, consistency and credibility. We believe that petrochemical trade is more than just a transaction. It is a responsibility that influences industries, supply chains and livelihoods.

We approach every deal with a long-term mindset. Whether we are sourcing a product or negotiating an international contract, we focus on mutual benefit, reliability and respect. Our decisions are guided by standards that are operational and strategic.

We do not chase volume for the sake of numbers. Instead, we build business on the foundation of real relationships, accurate commitments and sustainable practices. This mindset allows us to stay agile, honest and effective even in a rapidly changing global landscape.

Meet the Founder

SHUBHAM SRIVASTAVA

FOUNDER AND DIRECTOR, RUMICHEM
STRATEGIC THINKER. TRADE ARCHITECT. EXECUTION-FIRST LEADER.

Shubham Srivastava brings over a decade of hands-on experience in international trade, blending strategic thinking with a grounded approach to business. With a degree in Business Administration and a deep-rooted interest in international trade, he founded RumiChem to meet the growing demand for transparent and dependable chemical sourcing across Asia, Africa and the Far East.

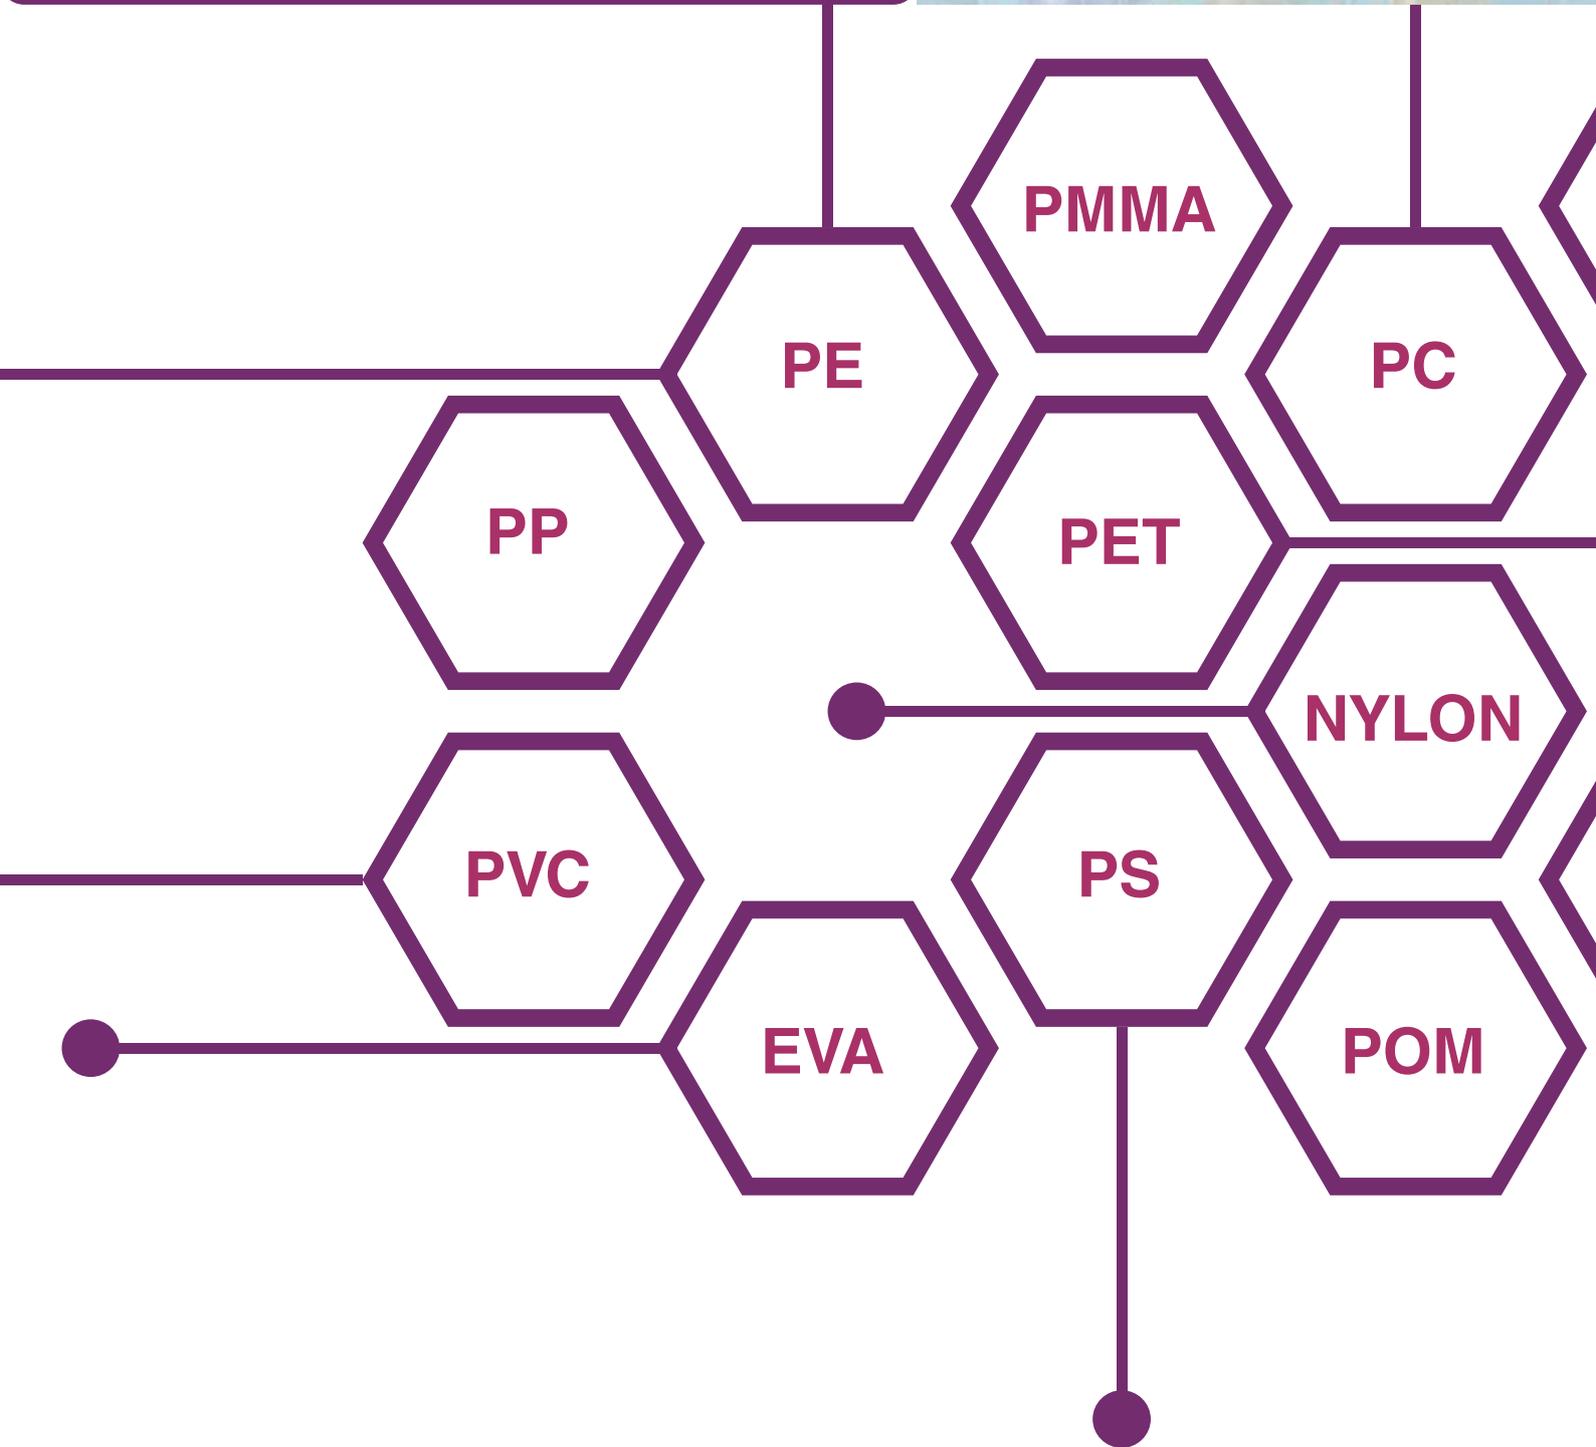

Shubham's approach to business is built on discipline, data and direction. He has a strong grasp of shifting market dynamics and believes in executing lean, focused strategies that deliver real value. His emphasis on relationship building, compliance and credibility has positioned RumiChem as a trustworthy trade partner from its beginning.

What sets Shubham apart is his ability to remain focused on fundamentals while also adapting swiftly to the ever-changing trade landscape. Whether it's overseeing negotiations, optimizing logistics or building regional connections, he leads with calm precision and a results-driven mindset.

As a young leader with a mature outlook, Shubham continues to shape RumiChem's identity as a company that values performance, people and purpose in equal measure.

- RAWANDA

Let's Grow Together

At RumiChem, we believe that the strength of a business lies in the clarity of its values, the precision of its execution and the trust it builds along the way. We are not just suppliers — we are partners in progress, committed to delivering reliable materials, thoughtful solutions and long-term value.

From polymers to petrochemicals, from regional partnerships to global reach, we continue to evolve with purpose and perform with integrity.

We welcome new collaborations, new challenges and opportunities to contribute to industrial growth across borders.

“Execution wins. In trade, clarity and consistency are worth more than noise. That’s the ethos behind RumiChem.”

— Shubham Srivastava
